Cutting Music

Music Quality

Must be High Quality, NOT downloaded from YouTube
Suggest purchasing from iTunes

Cut your music using GarageBand

Must sound professional and seamless
the sound level/quality should not change throughout your piece

Not choppy

Other Programs -- you can use other programs like Final Cut Pro if you know how to use

Costumes

You must make an appointment for costumes AFTER Progress Check #2 but BEFORE the week of the dance show

- do this early

- have a theme, color, idea in mind

- don't wait until the last minute, you may not get your first pick

Purchase on your own

- you can do this if you wish

- not recommended unless each dancer is purchasing their own outfit on their own

- I don't suggest collecting money unless you do it AFTER you have purchased and then dancers are paying you back

Communication

Please keep in communication with me

No cancelling rehearsals

Warning -- if you cancel your rehearsal without
telling me in advance, your piece will be dropped
from the show
